GOVERNANCE SYMPOSIUM 2020

Driving Governance in the New Decade:
The Future Begins Now

23 March 2020 (Monday)

Connexion Conference & Event Centre
@ The Vertical, Bangsar South, Kuala Lumpur

OBJECTIVES

- » To tackle contemporary issues and emerging risks pertaining to boards and provide mitigation measures toward building a stronger and more agile governance system
- » To provide an in-depth understanding of the current landscape of governance across all sectors in Malaysia and the vision for better governance in the future, in alignment with national and global legislation and the UNSDGs
- » To provide insights on emerging digital technology and how it can play a vital role in a more effective governance ecosystem
- » To equip boards with the requisite competencies and intelligences to navigate an increasingly complex governance landscape

WHO SHOULD ATTEND

- » Directors
- » CEOs, CFOs, CIOs and COOs
- » Chief Governance Officers
- » Company Secretaries
- » Compliance Officers
- » Legal Officers
- » Regulators
- » Internal and External Auditors
- » Risk Officers
- » Corporate Communications Officers
- » Investment Relations Officers
- » Advocates of Corporate Governance, Risk Management, and Internal Control

In 2020 and beyond, boards and those charged with governance (TCWG) must contend with an increasingly complex and challenging governance landscape replete with both current and emerging risks that range from digital to legislative to talent, ethics and culture.

Technologies such as big data analytics, robotics process automation, artificial intelligence, machine learning and blockchain are seen as drivers of the effectiveness and efficiency of boards, regulators and governance professionals in enhancing oversight, compliance and accountability.

The Governance Symposium 2020 focuses on how Boards and TCWG can leverage on next generation technologies backed by insightful business, strategic and cultural intelligences—and underpinned by a strong commitment to integrity and zero corruption—to build stronger and more agile governance systems befitting the 21st century corporation.

GOVERNANCE SYMPOSIUM 2020

Driving Governance in the New Decade: The Future Begins Now

PROGRAMME

8.00 am	REGISTRATION & WELCOME REFRESHMENTS
9.15 am	WELCOMING REMARKS
	PANEL DISCUSSION STRENGTHENING THE GOVERNANCE ECOSYSTEM IN MALAYSIA: RECENT DEVELOPMENTS AND LEGISLATIONS
9.30 am	This session will share on the recent developments and legislations for corporate governance in Malaysia. Areas of concerns as well as adoption of best practice for a smarter governance ecosystem are to be highlighted. It is vital for regulators to ensure the balance between imposing effective regulations and enforcements and its synchronisation with market's needs.
10.45 am	MORNING REFRESHMENTS & NETWORKING
	PANEL DISCUSSION GOVERNANCE IN A DYNAMIC BUSINESS ENVIRONMENT: A GUIDE FOR 21ST CENTURY BOARDS
11.15 am	Boards in the 21 st century are grappling with an increasingly complex business environment rife with emerging and strategic risks that threaten sustainability and long-term value creation, such as an influx of technologies and climate change. Besides adapting to the technological revolution, boards also need to focus on overcoming challenges in other areas such as in governance, talent, culture and strategy. This panel discussion will dive deeper the issues faced by boards that need to be mitigated and how boards can become more agile and resilient.
12.30 pm	LUNCH & NETWORKING
	THE FUTURE IN COMBATTING CORRUPTION AND BUILDING A CULTURE OF INTEGRITY
2.00 pm	This session highlights the Malaysian anti-corruption journey and where we are heading now as disruptive technologies emerge and are adopted rapidly across the board. As highlighted in the National Anti-Corruption Plan (NACP) 2019-2023 and in alignment with the UN Sustainable Development Goal (SDG) No 16 –Target 16.5: Substantially Reduce Corruption and Bribery, Malaysia aims to establish a nation of integrity and free from corruption in order to promote stakeholder-centric and sustainable economic growth. However, technology evolution is neutral and impartial; both defenders and offenders are capable of rapid technology adoption. This session discusses the vital steps to be taken to build values-based governance against corruption that is stronger, agile and pre-emptive of new emerging risks.
	REDEFINING TODAY'S CORPORATE GOVERNANCE: THE IMPACTS OF NEXT GENERATION TECHNOLOGIES
2.45 pm	While the Fourth Industrial Revolution has led to radical redesigns of business models, technological advancements have also resulted in cybersecurity threats and breaches of data privacy. Inundated by an array of technologies such as blockchain, big data and artificial intelligence, boards need to embrace a digital mindset and gain skills to ensure the relevant governance framework and strategies are formulated and applied. This session sheds light on how governance professionals can take advantage of next generation technologies and how they can manage the dark side and risks of technological disruption.
	CASE STUDY FROM WORST TO BEST AND BEST TO WORST IN GOVERNANCE: LESSONS LEARNT
3.30 pm	This session will share about a case study of companies: 1. That have progressed from being the worst to the best in corporate governance 2. That used to be the best in corporate governance but failed to sustain their reputation
4.30 pm	NETWORKING REFRESHMENTS AND END OF SYMPOSIUM

GOVERNANCE SYMPOSIUM 2020
